FOUNDATION

If we're going to create new jobs, we must support entrepreneurs. Yet, policymakers continue to prioritize big, established businesses over new businesses. The result: Entrepreneurship has remained effectively flat for 20 years, in part because women, people of color, and rural residents lack equal access to the tools needed to start new businesses..

Start Us Up Now has a bipartisan plan for policymakers that is focused on creating new jobs and leveling the playing field for startups and small businesses.
